

The Statement of Part15C Unlicensed Modular Transmitter Requirement for SDQSENSE1871

1. The modular transmitter has its own RF shielding.
2. The modular transmitter has buffered modulation/data inputs to ensure that the module will comply with Part 15 requirements under conditions of excessive data rates or over-modulation.
3. The power supply of modular transmitter is specified as DC 3.3V to 5V.
4. The modular transmitter employs a “unique” antenna port. The gain of any antenna used with the module must be less than 6dBi.
5. The modular transmitter has been tested in a stand-alone configuration.
6. The modular transmitter has been labeled with its own FCC ID number.
7. The modular transmitter has specific rule or operating requirements applicable to the transmitter and the manufacturer has provided adequate instructions along with the module to explain any such requirements.
8. The modular transmitter complies with the RF exposure requirements of FCC. These limits are part of comprehensive guidelines and establish permitted levels of RF energy for the general population. To comply with FCC RF exposure compliance requirements, this product is applicable only in Mobile Configurations. The antennas of this product must be kept a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.

Sincerely

ZHIJUN ZOU
