

## LETTER OF EXPLANATION

4<sup>th</sup> October 2007

Federal Communications Commission  
Authorization and Evaluation Division  
7435 Oakland Mills Road  
Columbia, MD 21046 USA

Subject: Ubisense Limited

FCC ID: SEATAG22HH

To Whom It May Concern:

The attached application is for a device that is both a 6 to 8 GHz UWB transmitter operating under 15.519 and a 15.249 device operating in the band 2400 to 2483.5 MHz. The assembly consists of a handheld module with permanently attached antennas. The whole device is powered by a 3Vdc coin type cell.

Previously a similar device from this applicant was certified as a Part 15.517/15.249 composite device (FCC ID: SEATAG22), and we are again following the FCC's guidance relating to that previous certification, which included submitting test reports for both the 15.519 and 15.249 transmitters under a single FCC ID.

Should you have any questions or require any further information with regards to this, please feel free to contact me.

Sincerely,

Mario de Aranzeta C.E.T.  
Engineer
