

RF Mode:

Date: 8.SEP.2009 16:52:56

Date: 8.SEP.2009 16:23:19

RF Mode:

The operation is transmission throughout 100ms. It will continue to transmit in the same pattern once it's operated.

Timing Calculation:

$$\begin{aligned}\text{Duty Cycle} &= (1.94\text{ms} \times 13)/100 \\ &= \underline{\underline{0.2522}}\end{aligned}$$

$$\begin{aligned}\text{Average Factor} &= 20\log(0.2522) \\ &= \underline{\underline{-12.0\text{dB}}}\end{aligned}$$
