The diagram illustrates a rectangular device, possibly a smartphone or a small tablet, viewed from the back. It features a curved top edge and a central rectangular area. Four circular holes, likely for speakers or microphones, are arranged in a cross pattern: one at the top left, one at the top right, one at the bottom left, and one at the bottom right. A black rectangular box is positioned in the center of the device's back panel, with the text "FCC Label Location" written in white inside it. The device is mounted on a stand with two vertical legs, one on the left and one on the right, which are connected by a horizontal bar at the bottom.

FCC Label Location
