Gentlemen,

In accordance with 0.459 of CFR 47, VT Miltope hereby requests confidentiality of all control documentation contained within Miltope's Technical Construction File (TCF) for the subject application.

These documents contain detailed system and equipment description and related information about the product which VT Miltope considers to be proprietary, confidential and a custom design and otherwise would not release to the general public. Since the design is a basis from which future technological products will evolve, VT Miltope considers that this information would be of benefit to its competitors and that the disclosure of the information in these documents would give competitors an unfair advantage in the market.

Sincerely,

Tom B. Dake
