

STARSYNC THREE STEPS INSTALLATION MANUAL

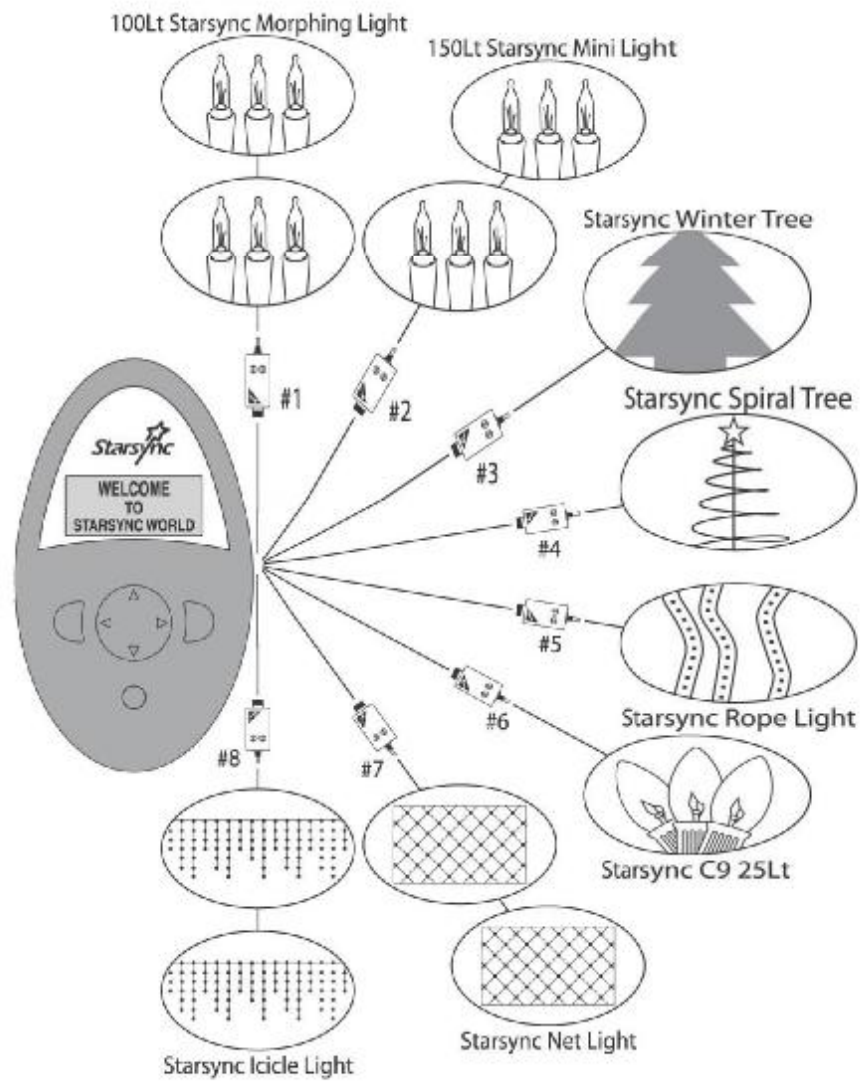

STEP ONE

Assign each receiver with an ID number, from one to ninety-nine.

- NOTE:
- Make sure each receiver's ID number is unique, please do not assign same number to two receivers, you can have up to 99 receivers with each starsync remote control unit.
 - Please do not forget the number you assigned to each receiver, use the stickers come alone with your purchase to help you.

CONTROL UP TO 99 RECEIVERS

STEP TWO

Connect your Starsync light sets to your receivers.
detail as show below.

NOTE: • To facilitate your installation, each Starsync is color coded connector, look at inside of the connector and only connect those with same color.

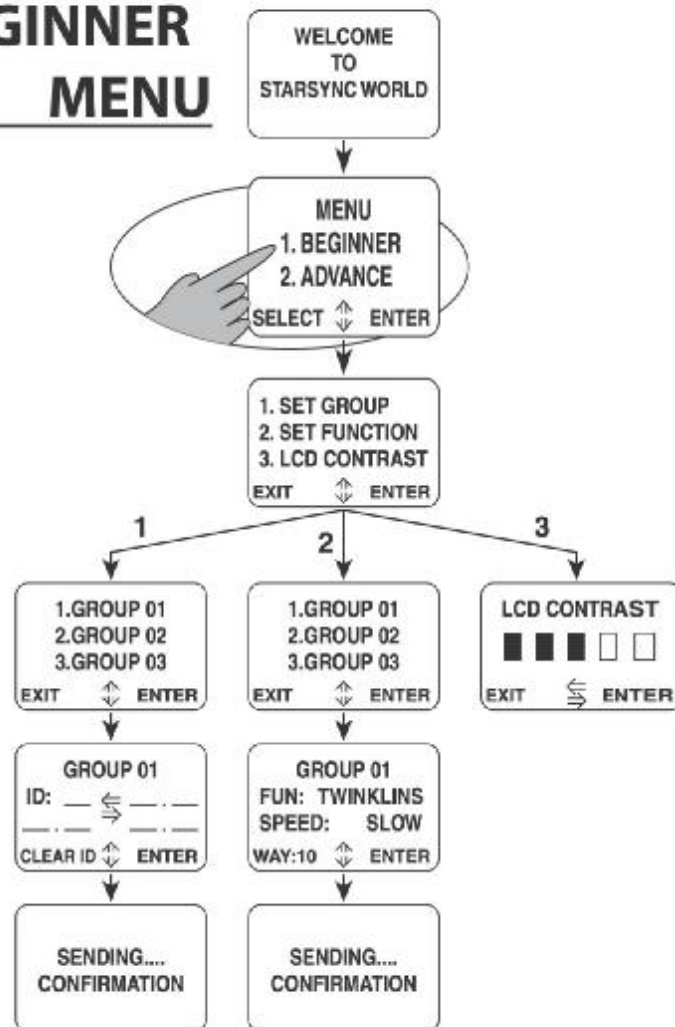

- UL safety regulation has restricted total number of Starsync light sets you can connect to each receivers. please look at below table to help you.
