- User Manager

The image shows a 'User Manager' window with a blue title bar and a close button. On the left is a vertical sidebar with a cartoon baby icon and two smaller icons (a picture and a camera). The main area contains three fields: 'Name' with a text input containing 'Baby', 'Sex' with radio buttons for 'Boy' and 'Girl' (where 'Girl' is selected), and 'Birthday' with a date picker showing '2009 07 07'. At the bottom are three green buttons: 'Mailbox' (with an envelope icon), 'Password' (with a lock icon), and 'Language' (with a smiley face icon).

Year	Month	Day
2009	07	07
2010	08	08
2011	09	09

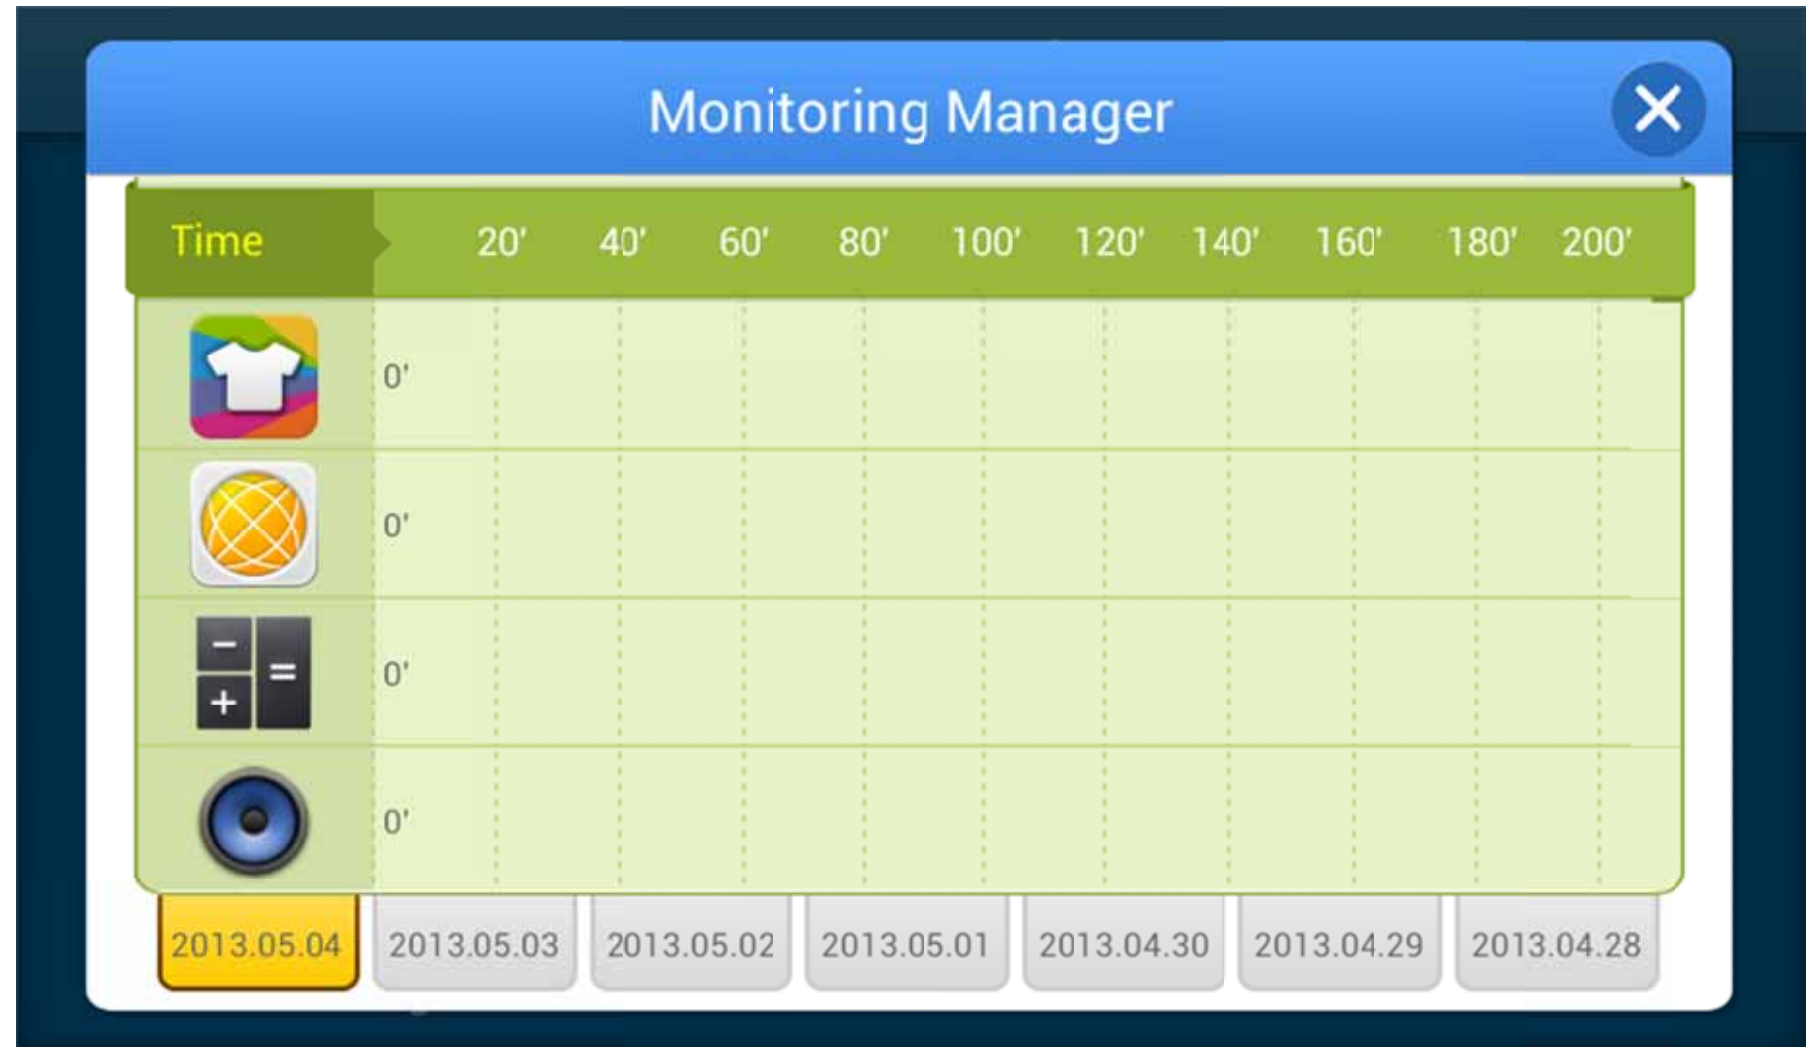

- Set the child's name, gender, birthday, etc.
- Set the authentication password with number or pattern mode
- Set the binding mailbox, through the email address, you can receive your password and play record of children.
- Set the language

- Apps Manager

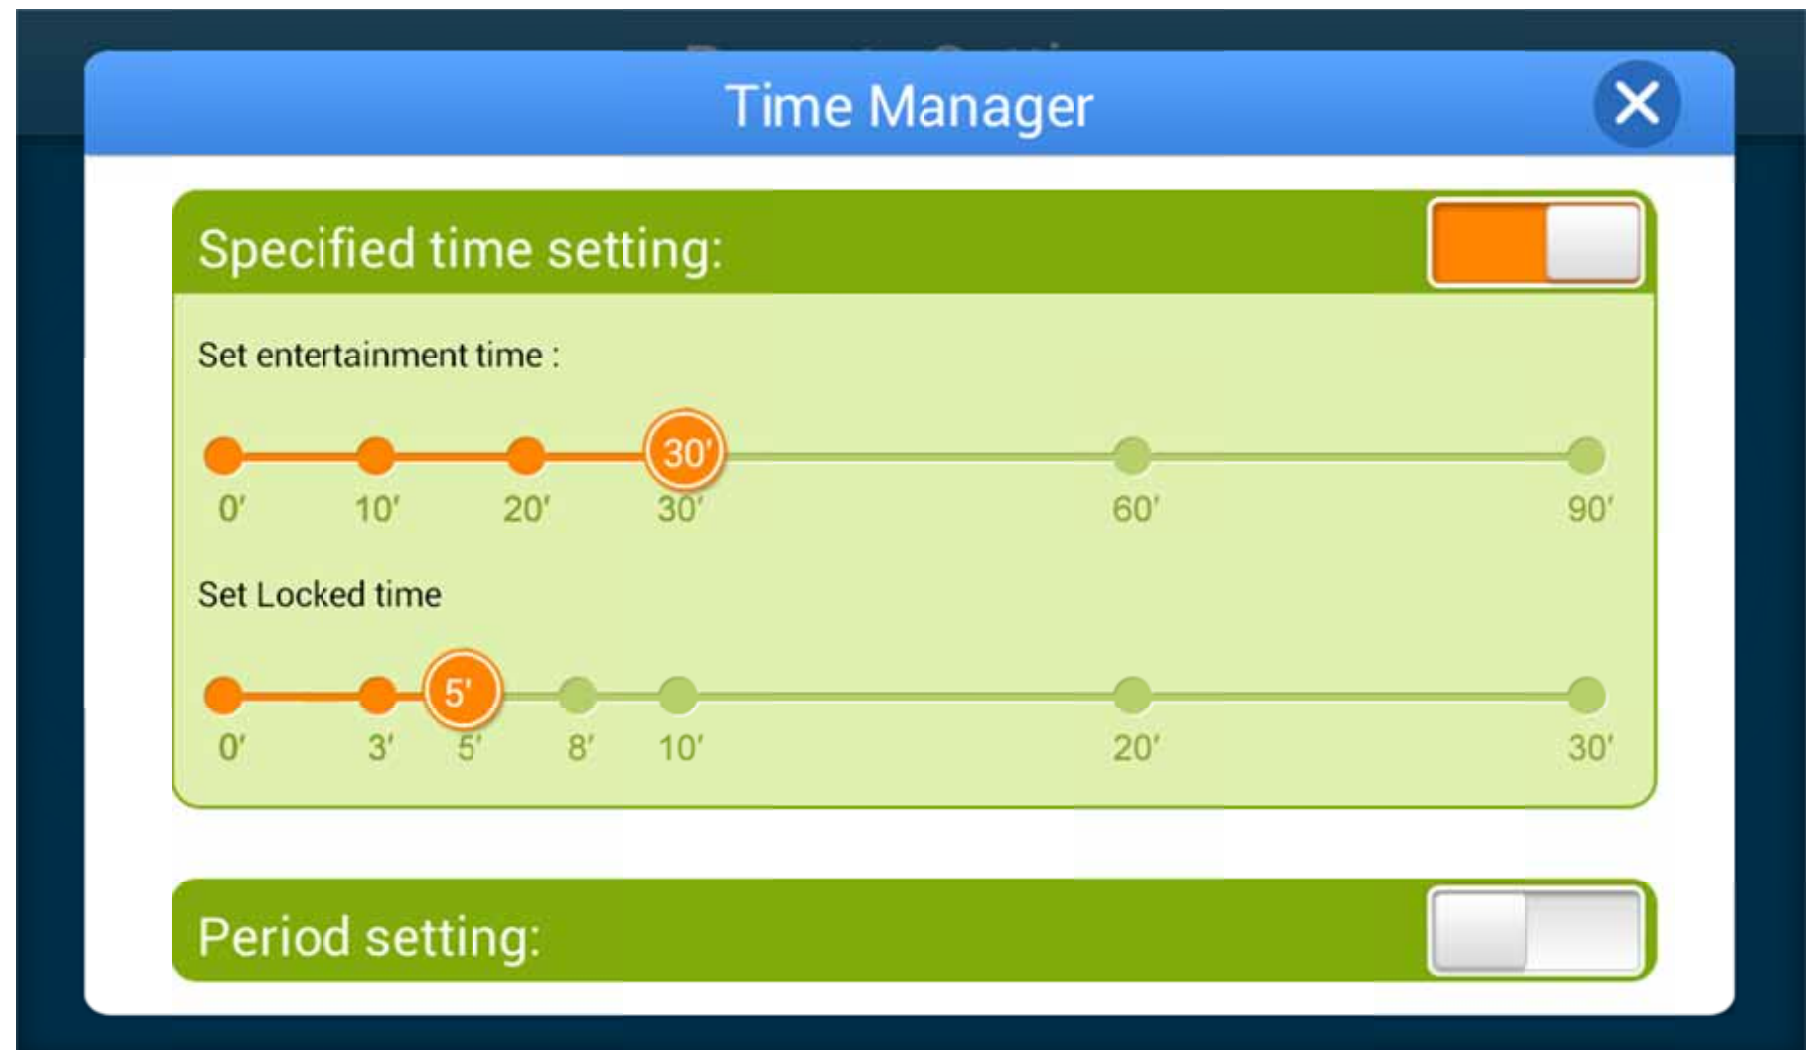

Parents can assign or delete the entertainment or educational applications for children.

- **Monitoring Manager**

It can clearly see each application's usage record in the last seven days, convenient for parents to supervise children better

- Time Manager

In Time manager, parents can set the specified time and daily use time period

After the specified time is setted, it will automatically lock the screen and only can unlock when time's up, or by password to make children have time to rest.

Time Manager

Specified time setting:

Period setting:

Beginning:

16

59

17

00

18

01

Ending:

17

59

18

00

19

01

Period setting : Children use it only in the set period

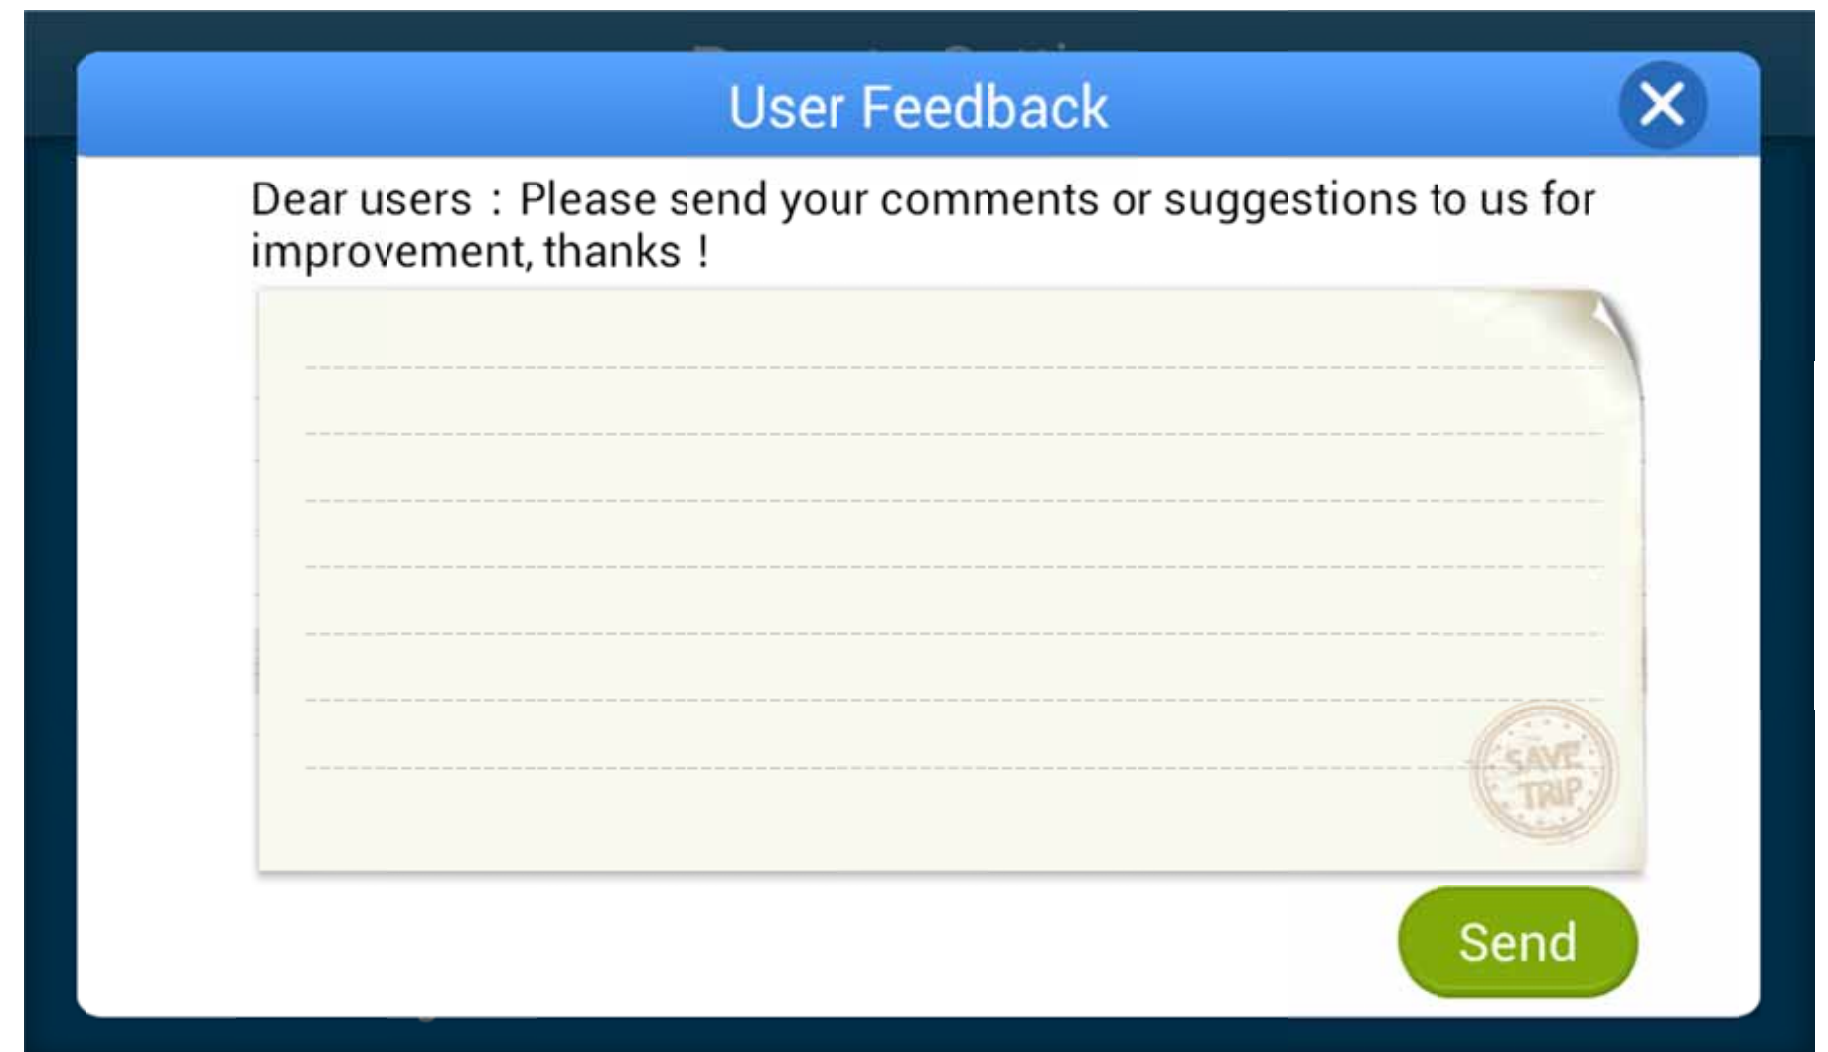

- **Brower Manager**

There are two ways available for browser setting, allow access to all sites, or only the designated website.

- Allow access to all sites means children can access all website
- Only the designated website means children can access the designated website only by parents, and the specified list of sites can be viewed or deleted in the list.

- User Feedback

A screenshot of a 'User Feedback' dialog box. The dialog has a blue header bar with the title 'User Feedback' and a close button (X) in the top right corner. Below the header, the text reads: 'Dear users : Please send your comments or suggestions to us for improvement, thanks !'. Underneath this text is a large, yellow, lined area for writing feedback. In the bottom right corner of this yellow area is a circular stamp that says 'SAVE TRIP'. At the bottom right of the dialog box is a green button labeled 'Send'.

Parents can send the comments or suggestions to us for the improvement of our products.

Federal Communications Commission (FCC) Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generate, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

RF exposure warning

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. The equipment must not be co-located or operating in conjunction with any other antenna or transmitter.
