Attention: Application Examiner / Reviewing Engineer  
Re: Confirmation Letter for FM Transmitter  
Applicant: Xdmb Inc., FCC ID: SICNVXM1000

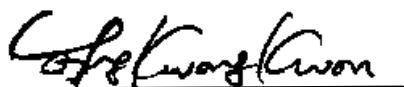

To whom it may concern,

We, Onetech Corp., would like to answer following questions for requesting by the TCB, Compliance Certification Services Inc on behalf of our customer, Xdmb Inc.

1. How does this device operate?  
→ It shall be operated in home or car.
2. Provide information on the device and its antenna  
→ It is a 4" LCD Portable Navigation that has a function for transmitting of FM broadcasting frequency range and PC peripheral for USB port. The TX antenna used is internal roof antenna.
3. How is it installed?  
→ The device is installed with the radio mounted in a manner that avoids blocking the view of the road by the driver or will be used in home.
4. What test procedure was used?  
→ ANSI C 63.4.
5. If tested in a car, how was it configured/tested?  
→ It was not tested in a car, but it was tested in OATS and chamber, because the device does not have external transmitting antenna input port.
6. Was the tuning range properly verified?  
→ Yes, the low channel is 96.1MHz, and the highest channel is 99.9MHz. Please refer to the statement and test data on page 17 and page 18 of the test report.
7. Was the bandwidth properly tested with maximum audio input?  
→ This device does not have an audio input port, so the EUT played mp3 files that were stored in the EUT and then transmitted audio signal with the maximum output volume.

If you have questions or need further information, please contact the undersigned.

Sincerely,

Y.K. Kwon / Director  
Onetech Corp.
