Dear Helen Zhao

We always appreciate your kind cooperation on our TCB applications.

Answer #1: We uploaded a corrected 'ID label format' on your web site.

Answer #2: As you mentioned, we checked this issue. Then we found that described resolution was only PDP panel spec. That device has a scaler part. And it operates to change Resolutions to panel specification. So an end user can select 1024 X 768 mode, and it is the worst case.

Answer #3: We uploaded a corrected 'external photos' on your web site.

Answer #4: We use Adobe Acrobat 6.0 version. Please update your system with Adobe Acrobat 6.0 version.

Answer #5: We are very sorry. For the next time we won't ever do it again.

Please check & progress these applications.

If you have any question or comment, please do not hesitate to contact us.

Thanks & Best regards,

Byung Ki Ham

>
> Question #1: The FCC ID label format does not include the FCC ID of
this
> device. Please revise the FCC ID label format.
>
> Question #2: The user manual (page 77) indicated the max. resolution
of this
> device (PAT-42EPI9N) is 852 (H) x 480 (V). However the test report
indicated
> the device was tested with max. resolution of 1024 x 768. Please
explain.
>
> Question #3: The External Photos exhibit does not include AC cord and
other
> video cables that will be provided to the end users along with the
TV Monitor
> itself. Please provide additional photos.
>
> Question #4: Several pages of user manual do not display the images
> properly, e.g. Page 12, 14, 15, 23, 36-62. For your information, I
use Adobe
> Acrobat 5.0 version, if you use higher version, please let me know.
> Otherwise, please re-convert into pdf.
>
> Question #5: This is for your information, please do not include
Grantee
> code into Product code when you fill out 731 form. In this case, the
product
> code should be "PAT-42EPI9N", please do not enter "SJJPAT-42EPI9N".
>
