Subject: Chainpus Technology Co., Ltd. , FCC ID: SJP-BK60011, Assessment NO.: AN04T4270, Notice#1

Question #1: The user manual indicates that the device is specifically designed to work with Symbian OS smartphone. Please explain why the test was

done with a laptop computer, instead of a smartphone.

Ans #1: The laptop computer here is only for testing setup used, means we use laptop PC to control the EUT to set it under continuous transmitting mode. As for the end user, the EUT is designed to use with smartphone, but since it's a BT device, the EUT still can communication with other BT devices.

Question #2: The Operational Description mentioned a 2.4GHz transceiver that can transmit and receive voice signal. Please indicate clearly this is the function of the bluetooth chip or the bluetooth keyboard. If it is the former, please revise the Operational Description to remove the misleading information. If it is the latter, please provide additional instruction/information to the user.

Ans #2: The operational description here mentioned is for bluetooth chip, so we have added some wording in the operational description, please refer to it.

(See attached file: BK600 OpDes_revised1027.pdf)

Best regards,
Helen Zhao

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.

This e-mail transmission is confidential and intended solely for being reviewed by the recipient(s) identified above. If you are not an identified recipient, please ensure that this communication remains confidential and promptly return it to the sender. Please contact immediately by phone (Tel: 886-2-2299-9720) for any problem with this transmission, Thank you for your attention.
