Re: FCC ID: SK9AMI-4, IC: 864G-AMI4

To Whom It May Concern:

The following application is submitted on behalf of our client, Itron, Inc., for evaluation of their model AMI4 for modular certification under FCC rule parts 15.247 as well as IC Radio Standards Specifications RSS-210.

The AMI4 contains (2) transceivers which include (1) frequency hopping 900 MHz LAN radio and (1) 2.4 GHz Zigbee radios each of which was evaluated separately to the corresponding rules. For simultaneous transmission the device was also evaluated for radiated inter-modulation products. The AMI4 device was found to be in compliance.

Sincerely,
