

Before your first use, please make sure the power is fully charged with included AC adapter & cable.

LED Status

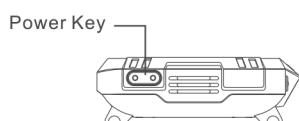

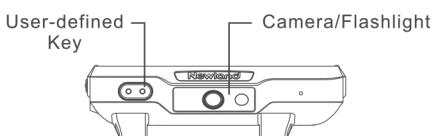

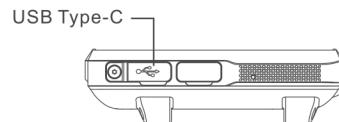

Charging LED/Battery Status

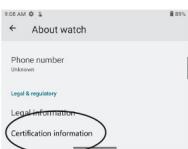

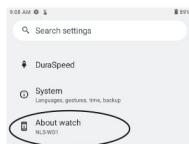

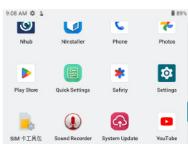

Blue LED on	Fully charged
Red LED on	Charging in progress
Red LED flashes	Low-battery alert

1

Appearance

Turn on the terminal. Tap the app icon -> "About watch" -> "Certification information" to find more certification information.

2

Quick Settings

Power Key:

1. When the terminal is power off, hold down the Power key for 3 seconds to switch the terminal on.
2. When the terminal is power on, briefly press the Power key to lock the screen.

User-defined Key:

1. The user-defined key will be set as "Home Key" by default.
2. Reset the user-defined key: Go to "Quick Setting" -> "Key Map", then set the parameters per your needs.

Touch the Screen:

1. Back to the previous page: Swipe inward from the left or right edge of the screen.
2. Back to the desktop: Swipe the screen from bottom to top.
3. Switch to the new task: Swipe the screen from bottom to top, then hold on until the recently used apps display.

4

1. Do not charge in a hot or humid environment. The low environment temperature will affect the charging efficiency.

2. The terminal is with a built-in battery, please do not replace it by yourself to avoid damage.

3. Do not use the terminal's wireless functionalities where wireless device use is prohibited or where it may cause interference or danger, such as in mines, gas stations.

4. Only use the dry soft cloth to clean the terminal. Cleaning it with a wet cloth or benzene/thinner/other volatile chemicals may deform and shorten the service life of the keypad and shell of the terminal.

5. The environment temperature should not be too low or too high, otherwise, it could cause malfunction. Please use the terminal under the permitted temperature.

6. If the terminal is damaged due to a drop from a high place or water, please contact the after-sales service center. Do not repair it by yourself.

7. Operations in the 5.15-5.25GHz band are restricted to indoor usage only.

5

5.0 GHz(W52,W53): Indoor Use Only

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

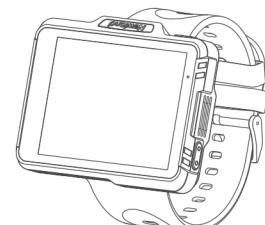

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

WARNING: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. The device must not be co-located or operating in conjunction with any other antenna or transmitter. This device complies with FCC's radiation exposure limits set forth for an uncontrolled environment.
