

## Justification of Supersession

Date: 8/29/2019

TO: Federal Communication Commission  
Equipment Authorization Branch  
7435 Oakland Mills Road  
Columbia, MD 21046

To whom it may concern:

This justification is for a purpose of requesting for permissions of putting the filing of authorized equipment:

FCC ID: **SLE-UC8112A**, Grant Date: **05/10/2019**

into auditor mode to allow the granting TCB to supersede the exhibitions of test report that has already been publicized on FCC host site with correct version.

Due to incorrect WWAN module supplier which related to modular report, and typo of Power Supply on page 4 of test report, we plead the replacement of the existing EMC test reports with revised ones that contain the correct information of module supplier and Power Supply.

There is no modification occurred to the authorized equipment, hence this request is ensured not applicable to any provisions related to changes in certificated equipment such as §2.1043.

File name of the Test Report:

**Test Report-1, Test Report-2, Test Report-3, Test Report-4, MPE**

File number of the new Test Report:

**E2-2019-30006-01 FCC MPE, T190304W05-RP P22,24,27**

Exhibition Type:

**Test Report**
