

Comment reply for FCC ID: SLE-WAPA003 _ ATCB 009182

1) Verify that this device is to be used indoors ONLY. Dual use devices (indoor and outdoor) do not qualify for indoor use under KDB 443999. 2) Explain how this device meets the country code requirements of KDB 594280. 3) Submit the band edge plots for 5600 and 5650 MHz.

Ans: We revised the user manual and put the statement "The availability of some specific channels and / or operational frequency bands are country dependent and are firmware programmed at factory to match the intended destination. The firmware setting is not accessible by the end user." In it.

Please kindly refer to page 74.
