RE: FCC ID: SGK-PSA1900_ATCB001692

1. Neither the manual nor the operational description gives an indication as to where this device is to be used. Is this used in a car, or at home or other. Please explain.

Response: The device is not for use in cars. It is for fixed applications at home or office. We can add a sentence to our manual to clarify this.

2. Please note that as this is an amplifier and since the downlink has the capability of amplifying more than one channel, please provide intermodulation test data.

Response: Data has been uploaded for this request.

Regards,

A handwritten signature in black ink that reads "Juan Martinez".

Juan Martinez
Sr. EMC Engineer
