## Baa-Baa-Barn™

**2 to 5 YEARS**

They're all acting like a
bunch of animals!

## FUNCTIONS

1. **ON/OFF SWITCH**
Save those baa-tteries

2. **FENCE DOOR**
Open the door to turn on the lights,
this activates the moooosical fun.

3. **ANIMALS**
Each animal sings their own baa-baa-beat
when placed on the barn floor.

4. **MOUSE SLIDER**
Slide mouse and watch the chicken jump
and do the Bok-Bok!

5. **SQUIRREL**
Press the squirrel to hear a musical
mish-mash. This guy activates the
moooosical dance floor too.

6. **DOOR (FOR RABBIT)**
Pull door. Hello, rabbit!

7. **HAYSTACK and MAZE**
Place ball in haystack and meet the mole.
Look down low for the zig-zagging ladybug.

8. **SILO**
Send balls twirling down the silo.
Wheeee, out the liftable door.

9. **BAT**
Lift the roof patch and meet
a friendly, twirling bat.

8.125" x 5.75"

**This device complies with Part 15 of the FCC Rules.**

Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.

Congratulations! You read through all of that tiny text?
Your eyes are very good, and your patience is admirable.
