Re: FCC ID: SM6-MINODE-WATER4

To Whom It May Concern:

The following application is submitted on behalf of our client, Mueller Systems, LLC, for evaluation of their model MiNODE-WATER4 for single modular certification under FCC Part 15.247.

The Mueller Systems MiNODE-WATER4 is an ISM band 902 to 928 MHz transceiver module with a maximum output power of +30dBm used in a data collection system connected to a device such as a standard water meter register. The MiNODE-WATER4 is a composite device operating under two modes utilizing frequency hopping and wideband digital modulation respectively.

The MiNODE-WATER4 was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,
