**Evaluation of Wanlida Group Co. Ltd PC-8001**  
**FCC id: SMFPC8001**

I have assessed the above referenced submission for Wanlida Group Co. Ltd and found it to be compliant. The product is a mini desktop PC incorporating an approved Wi-Fi module.

The following points were noted and resolved during the evaluation.

1. Technical Report

The conducted emission results showed incorrect values at two frequencies. This was attributed to typing errors and a replacement test report was provided.

2. User Manual

There were a number of references to the product as a notebook PC and indication as to laptop use. This was in error as the product cannot be used in other than desktop positions. A revised manual was submitted.

Yours sincerely
