RE: NINGBO BIRD CO., LTD.

FCC ID: SNMM19

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) Your response to class did not define class A-C. Additionally, the last response stated class 4. Class 4 only has one TX slot per 8 and therefore doesn't match the data as reported for SAR. According to the SAR report and crest factors reported, this device appears to be different class. Please reverify.

A handwritten signature in black ink, appearing to read "Timothy R. Johnson".

Timothy R. Johnson
Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
