June 22, 2007

Mr. Rick McMurray  
Rhein Tech Laboratories, Inc.  
360 Herndon Parkway, Suite 1400  
Herndon, VA 20170

Dear Rick:

This letter is to request that Rhein Tech file for a Change in ID under FCC Part 2.993 on behalf of ADI Engineering for the UWT-RX-4002-02 Modular Part 15 transmitter with original grant of equipment authorization dated May 11, 2007. ADI Engineering requests that the identification of this module be changed to SNR-RM1.

ADI Engineering certifies that no change in the design, circuitry or construction has occurred. The equipment bearing the modified identification does not differ from the original equipment. Furthermore, the original test results continue to be representative of and applicable to the equipment bearing the changed identification.

Please find included with this letter the photographs required by §2.1033(b)(7) or §2.1033(c)(12) showing the exterior appearance of the equipment, including the operating controls available to the user and the identification label.

If there is anything else required from ADI Engineering in support of this request, please let me know.

Sincerely,

Steven W. Yates  
President and CTO
