### 1.0 PURPOSE

To define specific requirements for the 916 MHz RF Module, Model Number: 8CB001, FCC ID: SNU-8CB001.

### 2.0 DESCRIPTION

This RF transceiver module is designed for use in the 902-928 MHz ISM band to meet FCC 15.249.

### 3.0 INSTALLATION

**This module is only approved for use when installed in devices manufactured by JTECH Medical.**  
There are no user installation instructions.

### 4.0 USER'S MANUAL

This module will not be sold separately and is only installed in systems manufactured by JTECH Medical. There are no user configurable options related to the RF operation of the module. Hence, there is no User's Manual associated with this module specifically.

### 5.0 ANTENNA

The antenna is installed by JTECH Medical and is not removable, or modifiable, by the user.

### 6.0 CONNECTORS

There are no user accessible connectors to the module.

### 7.0 COMPLIANCE STATEMENTS

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and, (2) This device must accept any interference received including interference that may cause undesired operation.

Changes, or modifications, not expressly approved by JTECH Medical could void the user's authority to operate the equipment.

### 8.0 FCC ID LABEL

The label displaying the FCC ID is placed on the PCB "FCC ID: SNU-8CB001".

**FCC ID: SNU-8CB001**

The enclosure of the product using the module must also have a label referring to the enclosed module. The label containing the statement "Contains FCC ID: SNU-8CB001" will be attached to the outside enclosure of the final product.
