Gentlemen:

Wireless Extenders respectfully requests confidentiality of certain materials provided with the submission of the YX500-CEL under FCC ID: SO4YX500-CEL in accordance with FCC Regulations 0.459. The confidentiality request applies to the schematics, parts lists, and block diagrams contained in this filing.

Pursuant to DA 04-1705 June 15, 2004 of the Commission's public notice, we also request temporary confidential treatment of the internal photos. We are working on new patents and we believe our competitors (especially foreign) will be able to copy some of our technology much more quickly if they have access to internal photos.

The YX500-CEL has been developed at considerable effort and expense by Wireless Extenders. These items are considered as highly sensitive and therefore public access to the proprietary material could possibly result in duplication of equipment that could severely damage the company's business advantage.

I appreciate your assistance in this matter.

Sincerely,

Michael W Rodgers
