

Subject: Request for Short Term Confidentiality
FCC ID: SP2-CH5-E01 & SP2-CH5-E02

To Whom It May Concern:

In accordance with §0.459 of CFR 47 and Public Notice DA 04-1705, **Toshiba Information Systems (UK) Ltd., Mobile Communications Division** requests

Short term confidentiality for the following items

1. External Photographs (Exhibit 3)
2. Internal Photographs (Exhibit 9)
3. Test setup (Exhibit 7)
4. User Manual (Exhibit 8)

until the two products will be publicly announced. (This is currently hoped for at the end of January 2008.)

These items contain detailed system and equipment description and related information about the product which **Toshiba Information Systems (UK) Ltd., Mobile Communications Division** considers to be proprietary, confidential and a custom design which otherwise would not be released to the general public. Since this design is a basis from which future technological products will evolve, **Toshiba Information Systems (UK) Ltd., Mobile Communications Division** also feels that this information would be of benefit to its competitors, and that the disclosure of the information in these exhibits would give our competitors an unfair advantage in the market.

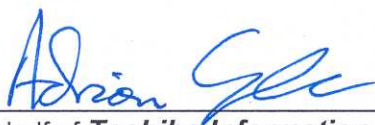

Please also substitute the following exhibits already on file with FCC with the new uploaded ones:

- Test setup for W-LAN and Bluetooth (Exhibit 7)
 - Change: Removed external and internal photos
- Test report for W-LAN (Exhibit 6)
 - Change: Removed external, internal photos and test setup

The justification for this change is that the original exhibits contained detailed external & internal photos of the products, as well as pictures of the test setup. These photos would be of benefit to our competitors, and that the disclosure of the information in these exhibits would give our competitors an unfair advantage in the market.

Toshiba Information Systems (UK) Ltd., Mobile Communications Division is aware that Test Setup Photos exhibits have been publicly available since the date of grant.

Best Regards,

On behalf of **Toshiba Information Systems (UK) Ltd., Mobile Communications Division**
