Subject: Class II permissive change filing to remove the DFS band

FCC ID: SPKCOPWRLAA

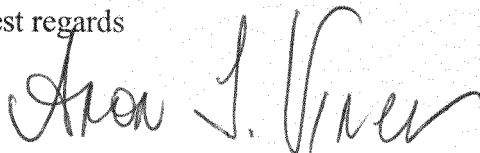

This letter is to inform the commission that Ambient Corporation will be disabling the 5250 – 5350MHz DFS frequency band from their device with the FCC ID above.

5250 - 5350MHz band will be disabled via firmware and will not be accessible to the user in any way. This firmware update is done by us. There is no hardware modification to the device.

Also device does not have Ad-Hoc functionality in any frequency band that requires DFS and in any non-US frequency band.

We understand that, this removal of DFS frequency band takes immediate effect and will be implemented in all new marketed devices as soon as this Class II permissive change is finalized.

Best regards

Aron I. Viner
