

SILK MASK BOTTOM

The diagram illustrates a control panel layout with the following components and connections:

- J1**: A vertical component with four circular indicators.
- J20**: A horizontal component with four circular indicators.
- J4**: A component with four circular indicators, one of which is highlighted with a thick border.
- JP5**: A component with four circular indicators arranged in a 2x2 grid.
- JP2**: A component with a single circular indicator.
- JP3**: A component with a single circular indicator.
- 9H**: Two circular indicators, one on the left and one on the right.

Connections are shown as lines linking the components, indicating a complex interconnection system.
