Matsumoto, February 13, 2015

To whom it may concern:

T&D Corporation is the manufacturer of the model RTR-500MBS. This device contains two RF Transmitters; one for Cellular communication with a Cell Tower and service provider, and one for direct communication in the 902 ~ 928 MHz ISM Band for direct communication with wireless data loggers, also of our manufacture.

As Manufacturer, T&D Corporation hereby attests that at no time during operation of the RTR-500MBS are both the Cellular transmitter and the 900MHz transmitter enabled and transmitting at the same time.

Sincerely

A handwritten signature in black ink, appearing to read 'A. Oana'.

Akemi Oana  
T&D Corporation
