Re: FCC ID: SRVWMGMR01

To whom it may concern:

Submitted herewith is an application for a Wireless LAN modular. In accordance with the requirements set forth in DA 00-1407 Released: June 26, 2000, this device incorporates the design features as described and listed below for Part 15 modular transmitter approval:

1. The modular transmitter has its own RF shielding. As can be seen from the test site photos, the device was tested outside the host equipment that provided data and power to the unit.
2. This modular transmitter has buffered modulation/data inputs that ensure the module will comply with Part 15 requirements under conditions of excessive data rates or over-modulation.
3. This modular transmitter has its own power supply regulation to ensure that the module will comply with Part 15 requirements regardless of the design of the power supplying circuitry in the device into which the module is installed.
4. The modular transmitter complies with the antenna requirements of Section 15.203 and 15.204(c). The product will be installed inside of the CCD Camera. The antenna is located outside of the device and The antenna connector type is reverse SMA type and so meets the requirements of 15.203 and 15.204(c).
5. This modular transmitter was tested in a stand-alone configuration outside the host device during testing. No modifications were made to the host device.
6. This modular transmitter is labeled with its own FCC ID number, and, if the FCC ID is not visible when the module is installed inside another device, then the outside of the device into which the module is installed will also display a label referring to the enclosed module. This exterior label will use this wording: "Contains FCC ID: SRVWMGMR01".
7. This modular transmitter complies with all operating requirements applicable to the transmitter.
8. This modular transmitter complies with applicable RF exposure requirements. Please refer to MPE Calculation.
9. This modular transmitter will be installed only in the product of LINUDIX Co., Ltd.

Sincerely,

Yu-Chul, KIM / Manager
LINUDIX Co.,Ltd.
