FEDERAL COMMUNICATIONS COMMISSIONS

Authorization and Evaluation Division

7435 Oakland Mills Road

Columbia, MD 21046

Subject: Extended Frequencies Justification

Dear Sir/Madam,

The Radio with FCC ID: STZSDP600TU was designed to operate in the frequency bands 406.1-480 MHz

To aid equipment authorization in other countries which accept the United States FCC Grant for Certification, Simoco Australasia Pty Ltd is requesting that the FCC lists the frequencies 406.1-480 MHz, under FCC Rule Part 90 on the FCC Grant.

Simoco Australasia Pty Ltd, attests that the radio will not be marketed to USA users with the frequency band which is not allowed by the rule part 90.

Per the FCC's KDB634817 guidance, as an alternative to listing the exact frequencies, we acknowledge that it's a violation of the FCC Rules if this device operates on unauthorized frequencies.

Frequency Range(MHz)	FCC rule part
406.1-420 MHz	For Federal
420-480 MHz	FCC Part 90

Also, equipment programming is the responsibility of Authorized Service Personnel, the radio complies with 47 CFR Part 90.203(e), in that the operator cannot directly program the transmit frequencies using the normally accessible external controls.

Sincerely Yours,

Signature:

Robert Stowell
Manager
