Hi Helen,

About Question#1:

The plot of page 14 is the PEAK result of the radiated emission test.
It's the reference for the QP test.
The QP result is at page 12 (Freq.: 575.140MHz, vertical, QP= 44.8 dBuv/m, Limit= 46.0 dBuv/m).

About Question#2:

Attached please find the new test report.
Please see the plot at page 11.

Any questions please feel free to contact with me.

Best regards,

Joe

Question #1: Page 14 of the test report shows the emission exceeds the FCC15.209 limit. Please explain.

Question #2: Please provide a bandwidth plot to show bandedge compliance. Please make sure field strength of any emissions appearing outside of the 13.110-14.010 MHz band shall not exceed 15.209 limits.

Best Regards,
Helen Zhao

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
