## **FCC ID Label Location**

RE: Certification Application

FCC ID: SUAPL3301

FRN: 0012367751

October 10, 2007

Chief, Authorizations Branch  
Federal Communications Commission  
7435 Oakland Mills Road  
Columbia, MD 21046

To Whom It May Concern:

The following photograph shows the FCC ID: SUAPL3301 label location on PL3301. The label printed on self adhesive tape is located on RF shield as shown below:

*"When we were young, we wanted to change the world...now we have the technology"™*

## **Exterior FCC ID: SUAPL3301 Label on Finished Product.**

The picture below shows the required FCC ID Label that must be displayed on a finished product. It is the responsibility of a finished product manufacturer to display this label on the product. This requirement is per the FCC Second Report and Order FCC 07-56 Section A – “Single Unit Modular Transmitters” requirement paragraph nr.6; “The modular transmitter must be labeled with its own FCC ID number, and, if the FCC ID is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module. This exterior label can use wording such as the following: “Contains Transmitter Module FCC ID: XYZMODEL1” or “Contains FCC ID: XYZMODEL1.” Any similar wording that expresses the same meaning may be used. The grantee may either provide such a label, an example of which must be included in the application for equipment authorization, or must provide adequate instructions along with the module which explain this requirement. In the latter case, a copy of these instructions must be included in the application for equipment authorization.”
