Subject: RF Equivalence for CVRx Model 2100 and Model 2102 IPGs.

The CVRx Model 2100 and Model 2102 IPGs are exactly the same from an RF perspective and therefore RF testing performed with a Model 2102 are equivalent to the results of a Model 2100 IPG.

IPG Model 2102 was tested on the dates listed in the attached report (#100511823MIN-001). The passing results in the report demonstrates the compliance of the IPG to the requirements of 47 CFR Part 95 Subpart I, and for Part 15.109.
