Columbia, MD 21046

Ref: FCC ID: SYGMUKULABS860

Dear Sirs:

Muku Labs Limited requests acceptance of the labeling proposal described below for product bearing FCC identifier SYGMUKULABS860.

The subject product are compact handheld models as shown in figure 1, authorized under 47CFR Part 15C for Bluetooth services.

Figure 1.

Because the available label area on the device is limited because it is relatively small and has many contoured surfaces, keypads, LCD displays, charge contacts and other connectors. The batteries are designed for easy removal and the label will be visible whenever the batteries are removed for replacement. Muku Labs Limited proposes placing the label carrying the FCC identifier inside the battery compartment as shown in figure 2.

Figure 2.

The consumer packaging for these models includes the battery pack as a separate item, NOT installed on the radio. As such, the FCC identifier will be readily visible to the user before the battery pack is installed and whenever the battery pack is removed or replaced. In this location, the label will also be protected from physical abuse and remain readable for the anticipated life of the device.

The consumer packaging for these models is a "gift box" which does not allow the transceiver to be seen at time of purchase. In order to meet the requirements of 47CFR Part 2.925 (d), Muku Labs Limited will add the FCC identifier " SYGMUKULABS860 " to the outside of the consumer "gift box" packaging.

Thank you for your attention to this matter.

Yours Sincerely,

Wu Xuewen
