7. If your mobile phone can't accept pairing or finish pairing but no sound happened, it means your mobile phone only accept "Handfree" mode, please refer pairing procedures and change the service mode into handfree mode by press Hot key one time.

REGULAR OPERATION

🌑 After a successful pairing, you may change Handfree status by following instruction upon your need.

Make a phone call using the phone key pad
You can use the phone as usual to dial a number. The tones and audio signals are automatically transferred to your handfree and white LED will be lighted to support you handle it.

Make a phone call using voice activation
Some phones allow you to use voice-dialing feature. The voice dial function must be activated and voice tags already recorded. Please refer to the phone user guide for instructions on storing voice tags.

1. Press the Accept button one time, a tone prompts you to say the name of the person you wish to call as entered in the phonebook.

D **Desma Bluetooth Handfree Quick Start Guide**

2. Call out the voice tag name, the phone will automatically place the call.

Make a phone call using the redial function
Press Accept button 2 second to redial the number.

Hand up a phone call from the headset
To hand up a call, press the Reject button.

Reject a call
When ring tone still in calling, press Reject button.

Receiving a call
A ring tone will sound in your handfree. Device will answer all phone calls automatically, or you can press the Accept button to answer.

Transferring a call
Transfer a call between handfree and your phone. Please press volume up and down together to transfer phone call. Sometimes it must be initiated by the phone. Please refer your phone's user guide.

Disconnecting your Bluetooth link
To terminate the Bluetooth connection between the handfree and your phone, turn the handfree off.
