

BLUETOOTH HEADSET

INTRODUCTION

This Bluetooth Headset utilizes Bluetooth technology to achieve a wireless connection with a mobile phone. The Bluetooth Headset supports the Bluetooth “Headset” and “Hands Free” profiles. Your mobile phone must also support Bluetooth technology in order to make and receive calls using this Bluetooth Headset.

CHARGING YOUR HEADSET

Charge approximately 2 ~ 3 hours before using the headset. Plug the USB Jack on the USB device or USB adapter into the headset charging port. When charging the headset, the indication light (Red LED) will be on and the headset will shut off automatically. When the charging is completed, the headset indicator (Red LED) turns off. You will have to turn on the headset after the charging process. When you hear tones through the headset’s speaker or you see the red LED flashing, the headset will need to be recharged.

TURN ON/OFF THE HEADSET

TURN ON THE HEADSET

Press main button for 3 seconds, you will hear the tone from the speaker and see the blue light flashing. The headset will go into stand-by mode.

TURN OFF THE HEADSET

When the headset is in stand-by mode, press the main button for 3 seconds, you will hear a tone from the speaker and see the Blue light flashing. The headset will be turned off. It will also disconnect with the paired device.

PAIRING WITH THE MOBILE PHONE

Pairing with your mobile phone:

1. Hold the headset and mobile phone in close proximity.
2. Turn off the headset, lighting indicators shall all be off.
3. Press and hold the main button key for up to 6 seconds. You will hear a tone and the blue LED and red LED will flash at intervals.

At this moment, the headset is in the pairing mode.

4. Perform a device discovery (search or scan) from the mobile phone.

For details about device discovery consult your phone's user guide.

5. Enter the pass key "0000" to pair the headset with the phone
(Pairing is successful when the headset blue light is flashing)
6. Link your headset to the mobile phone to establish the audio connection. You can now place and receive calls directly on your headset.
7. If you want to quit the pairing mode, please press the main button again.

USING YOUR HEADSET

Make a phone call using the phone key pad

You can use the phone as usual to dial a number. The tones and audio signals are automatically transferred to your headset.

Make a phone call using voice activation

Some phones allow you to use a voice-dialing feature. The voice dial function must be activated and voice tags already recorded. Please refer to the phone user guide for instructions on storing voice tags.

1. Press the main button, a tone prompts you to say the name of the person you wish to call as entered in the phonebook.
2. Call out the voice tag name, the phone will automatically dial.

Make a phone call using the redial function

Press Volume up 2 seconds to redial the number.

Hang up a phone call from the headset

To hand up a call, press the main button.

Receiving a call

A ring tone will sound in your headset. Just press the main button to answer the call.

Transferring a call from the headset to your phone:

Press and hold main button for 2 seconds – the call will transfer from the headset to your phone.

Transferring a call from your phone to the headset:

Generally speaking, just turn the headset power on and then press the main button - the call will transfer from your phone to the headset.

Disconnecting your Bluetooth link

To terminate the Bluetooth connection between the headset and your phone, turn the headset off.

Volume control

Adjust the volume up during conversation, press volume up.

Adjust the volume down during conversation, press volume down.

When the minimum/maximum volume is reached, a beep sound will occur.

Notice

The paired Bluetooth mobile phone has to support Bluetooth HSP or HFP.

The actual hands-free functions and operations may vary due to the different paired mobile phone models and Bluetooth settings.

If the headset is distant from the mobile phone, or if there are some metal obstructions in-between, the hands-free communication may be interrupted or interfered.

BATTERY AND CHARGING NOTICE

BATTERY WARNING

The headset contains rechargeable Lithium battery. To reduce the risk of fire or burns, do not disassemble, crush, puncture, short external contacts, or dispose of in fire or water.

CHARGING NOTICE

To reduce the risk of personal injury, electrical shock, fire or damage

to the equipments, please follow all instruction below :

Do not expose the headset to rain or water.

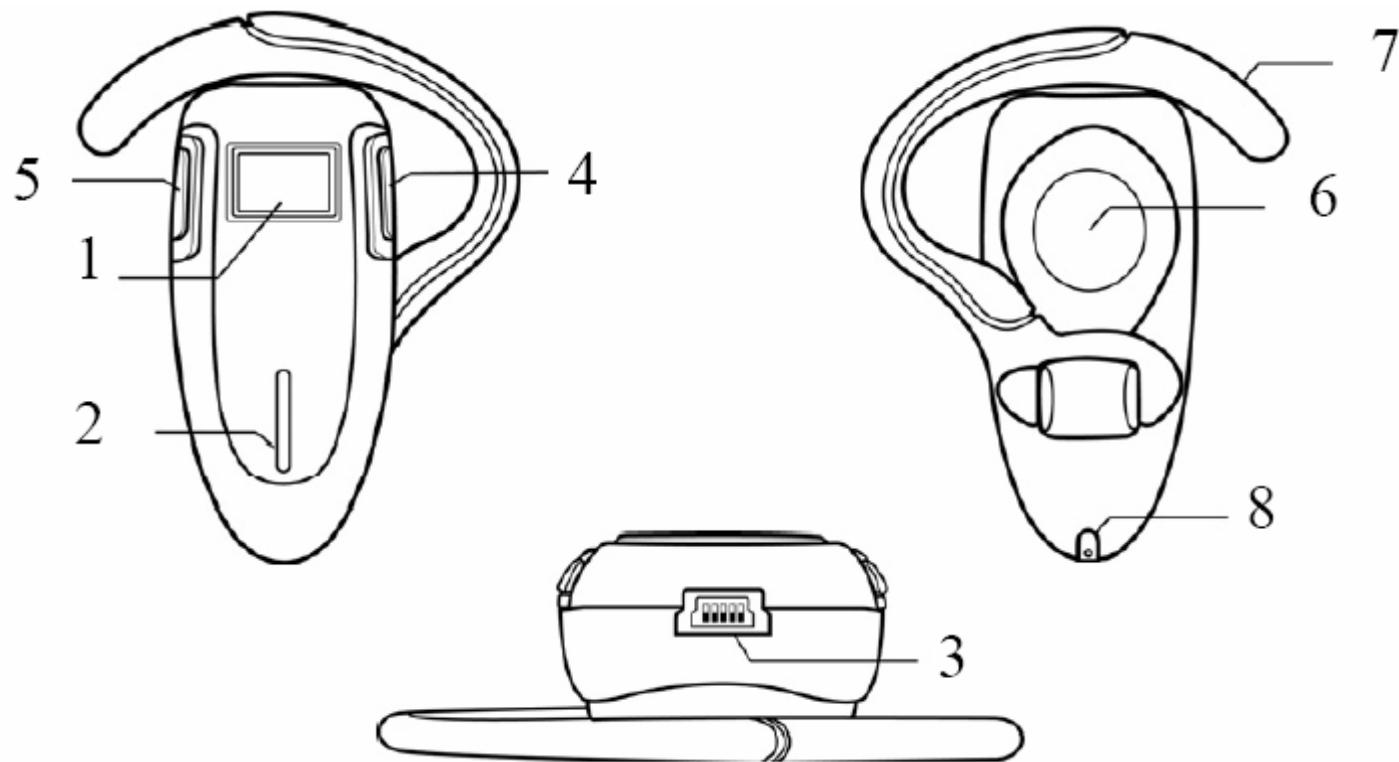

Dot not install, place or use the headset near any source of heat such as a stove, radiator, oven, toaster, coffee maker or other apparatus (including microwave oven) that gives off heat.

Always use the original USB Charging Cable included in the retail box to charge the headset. Using any incorrect power supply device will cause damage to the headset and void the warranty.

FCC Statement

You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Operation is subject to the following two conditions

- 1) this device may not cause interference and
- 2) this device must accept any interference, including interference that may cause undesired operation of the device.

FCC RF Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Wireless Notice

In some environments, the use of wireless devices may be restricted. Such restrictions may apply aboard airplanes, in hospitals, near explosives, in hazardous locations, etc. If you are uncertain of the policy that applies to the use of this device, please ask for authorization to use it prior to turning it on.

DGT Statement

根據交通部低功率電機之規定：

第十四條

經型式認證合格之低功率射頻電機，非經許可，公司、商號或使用者均不得擅自變更頻率、加大功率或變更原設計之特性及功能。

第十七條

低功率射頻電機之使用不得影響飛航安全及干擾合法通信，經發現有干擾現象時，應立即停用，並改善至無干擾時方得繼續使用。

第二十條

輸入、製造低功率射頻電機之公司、商號或使用者違反本辦法規定，擅自使用或變更無線電頻率、電功率者，除依電信法規定處罰外，電信總局並得撤銷其型式認證證明或型式認證標籤。
