

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

**EUT Housing and Board
View 1**

**Solder
Board-Component View
1**

Solder Board-Component View 2	 A circular copper-colored printed circuit board (PCB) with a central circular hole. The board is mounted on a blue surface. A metal ruler is placed vertically to the left of the board, showing measurements from 1 to 30 cm. The board has 12 small circular mounting points arranged in a ring around the central hole. There are also 12 small red markings on the board, one near each mounting point.
Solder Board-Component View 3	 A white rectangular component with a series of vertical slats on its front face. A black and white cable is connected to the top of the component. The component is mounted on a blue surface. A metal ruler is placed vertically to the left of the component, showing measurements from 1 to 26 cm. The component is approximately 10 cm wide and 15 cm high.

Solder Board-Component View 4	 A photograph showing the back of a white electronic component with a white ribbon cable and two black wires. The component is placed on a blue surface next to a metal ruler for scale. The ruler shows centimeters from 1 to 33.
Solder Board-Component View 5	 A photograph showing the front of a green printed circuit board (PCB) with various electronic components, including capacitors and a microcontroller. The PCB is placed on a blue surface next to a metal ruler for scale. The ruler shows centimeters from 1 to 33. A white plastic enclosure with ventilation slots is also visible next to the PCB.
