RE: Planet Toys (HK) Ltd.

FCC ID: SZ23411T27

I have a few comments on this Application. Depending on your responses, kindly understand there may be additional comments.

- 1.) Neither the Internal Photographs nor External Photographs could be opened for this filing. Could you kindly either send the photos in *.jpg format or (this is preferred) convert to *.pdf format and upload to the AmericanTCB website.
- 2.) It appears that a biconical antenna was used for measurements of the fundamental emission at 27.145 MHz. This is no longer allowed by FCC. Kindly confirm your measurements made at 27.145MHz using a loop antenna as specified in ANSI C63.4. The specific ruling from FCC concerning this measurement decision is included for your reference (see attachment).

William H. Graff
President and Director of Engineering

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
