Nemko North America, Inc.

303 River Road, Ottawa, Ontario, Canada K1V 1H2

Attn: Director of Certification

Request for Confidentiality – FCC**FCC ID: T3X-B812**

Pursuant to FCC 47 CFR [0.457\(d\)\(1\)\(ii\)](#) and [0.459](#) and FCC guidance published in [KDB 726920](#), we hereby request confidential treatment of information accompanying this

application as outlined below.

We request the exhibits selected below as **long term confidential (LTC)** be withheld from public view permanently:

Selection of exhibits for LTC - general	Exhibit name
☒ Permanent (Long Term)	Block Diagrams
☒ Permanent (Long Term)	Operation Description / Theory of Operation
☒ Permanent (Long Term)	Parts List & Placement / BOM
☒ Permanent (Long Term)	Schematics
Selection of exhibits for LTC - specific ¹	Exhibit name
☐ Permanent (Long Term)	Tune-Up Procedure
☐ Permanent (Long Term)	SDR ² Software / Security Info

We also request the exhibits selected below as **short term confidential (STC)** be withheld from public view for a period of 180 days³ from the date of the Grant of Equipment Authorization and prior to marketing. This is to avoid premature release of sensitive information prior to marketing or release of the product to the public:

Selection of exhibits for STC ⁴	Exhibit name
☒ Short Term	User's Manual
☒ Short Term	Internal Photos
☒ Short Term	External Photos
☒ Short Term	Test Setup Photos
☐ Short Term	Tune-Up Procedure <i>(for Licensed equipment only)</i>

Our company has spent a substantial effort in developing this product and it is one of the first of its kind in the industry. Having the subject information easily available to "competition" would negate the advantage they have achieved by developing this product. Not protecting the details of the design will result in financial hardship.

When the device is marketed before the requested number of days listed above, the grantee will inform the TCB to release the Short-Term Confidentiality information withheld on the FCC equipment authorization website.

¹ - Tune up procedure is applicable only for licensed equipment.

² - The FCC rules require that any radio, in which the software is designed or expected to be modified by a party other than the manufacturer that would affect the operating parameters of frequency range, modulation type, maximum output power or other radio frequency parameters outside the range under which the transmitter has been approved in accordance with the FCC rules, must be certified as a software-defined radio (SDR).

³ - Number of days can be listed up to 180 but should not go past the date of beginning of product marketing/sale.

⁴ - Any exhibits that may have already been requested to have "Permanent" confidentiality need not be repeated under Short-Term confidentiality request.
