A white, rectangular electronic device, likely a modem or router, is shown from a three-quarter perspective. The device has a yellow ruler placed horizontally below it for scale, with markings visible from 63 to 74 cm. On the front panel, from left to right, there is a circular 'WPS' button, an 'ADSL' port, four 'LAN/ETH' ports, and a 'PHONE LINE PORT'. The top surface of the device features a grid of small holes and several circular buttons. The device is set against a plain, light-colored background.
