

User Manual

Application Note:

Manufacturer : Raywa Lighting & Electrical Corporation

Model: CF9W/PAR20

FCC ID:T5D-CF9W

Life rating based on reasonable use and in accordance with package and lamp direction. Use only on AC 120 VAC, 60 Hz circuit. Minimum starting temperature: -23°C/-10°F. Rated data and best lamp performance achieved at 25°C/77°F. Not suitable for use on dimming circuit, electronic timers, photocell devices, illuminated switches or occupancy sensors. Not for use in totally enclosed fixtures. Risk of electric shock, do not use where directly exposed to water or weather.

This light device has been tested and found to comply with the limits for Consumer RF Lighting Device. This device complies with Part 18 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. This device is not intended for use with emergency exits. Do not install this product near maritime safety equipment or other critical navigation or communication equipment operating between 0.45-30MHz. Do not open. No user serviceable parts inside. This class-B RFLD complies with the Canadian standard ICES-005.

One year limited warranty on commercial applications and two years on residential application.
