
AXONE NEMO LIGHT

USER MANUAL

WELCOME!

Thank you for purchasing this device. it brings you wonderful user experience. Before beginning, please refer to this user manual carefully.

Product features :

- Based on Intel N100, Quad-Core, up to 2.6Ghz
- Connect to WiFi (Ethernet),

CHAPTER ONE A Glance on AXONE NEMO LIGHT

一、 Appearance

KEYS

- 1: BACK CAMERA
- 2: HDMI
- 3: USB
- 4: POWER CHARGING
- 5: USB
- 6: TURN ON BUTTON
- 7: FRONT CAMERA
- 8/9: LED light

二、Product Specifications

Items		Function description
1	Processor	Intel N100, Quad-Core, 2.6Ghz
2	LCD	10.1" 1920*1200 IPS
3	RAM	8GB
4	Storage (SSD)	256GB
5	OS	Windows 11Home
6	WiFi	802.11ac/b/g/n/a
7	Connection ports	HDMI; Type C USB 3.0 x1,

		Type A USB 2.0 x1
8	Bluetooth	4.2

FCC Caution:

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

This Product meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

FCC RF Exposure Information and Statement the SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of this AXONE NEMO LIGHT (FCC ID:T8RAXNL23) has been tested against this SAR limit. SAR information on this device can be viewed on-line at

<http://www.fcc.gov/oet/ea/fccid/>. Please use the device FCC ID number for search. This device was tested for typical operations 0mm from the body. To maintain compliance with FCC RF exposure requirements, 0mm separation distance should be maintained to the user's bodies.

SAR Value of this device:

After the laboratory measurements, when it is kept 0mm from your body, the SAR values for this device are: 1.043W/kg(1.6W/kg)

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

English:

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.

French:

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

1. L'appareil ne doit pas produire de brouillage;
2. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

SAR Statement:

This AXONE NEMO LIGHT meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health. IC RF Exposure Information and Statement the SAR limit of Canada (IC) is 1.6 W/kg averaged over one gram of tissue. Device types: AXONE NEMO LIGHT (IC: 23618-AXNL23) has also been tested against this SAR limit.
