STRAIGHTWAY HOVERCRAFT

• Goes on land and water! • 3 powerful motors

changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

STRAIGHTWAY HOVERCRAFT R/C

Powers over land and water on a cushion of air!

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Dual drive props
Power switch
Safety cages
3 powerful motors
Air compressor for lift
9.6-volt power
Rubber air-bag skirt

Real hovercraft goes on land and "off-road" on water, snow and ice!!

It rides on a cushion of air created by pressurized air blowing downward into the rubber air-bag skirt, specially designed to "seal" with the ground. Two powerful aircraft-style props provide propulsion and steering. STRAIGHTWAY HOVERCRAFT blasts over most any level surface (flat and smooth enough to "keep the air in"—floor, pavement, dirt, water, ice and snow!)
