RE: Shinsedai Company Limited

FCC ID: TA4PT1FSH31001

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) Pages 20-22 show peak measurements in excess of the average limits. Average measurements must also be reported. Please correct.
- 2) Please explain why the fundamentals on pages 20 and 22 are 10 dB higher than shown as part of the bandedge measurements. This suggests that the bandedge measurements are not properly taken or some other error exists. Please review.
- 3) The 731 form should be adjusted to shown an equipment type of DXX.

Timothy R. Johnson  
Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
