Charging	Plug the charger DC end into the micro port (LED is red when charging, it turns green when fully charged)

1.2 Charge the Bluetooth speaker

We use the general micro 5P plug for the tooth speaker. We provide cable that can switch USB plug into micro 5P plug. Of course you can use your own adapter with micro 5P plug, make sure the DC output voltage is 5V and the adapters made by qualified factories .Please ensure that you charge your speaker more than 4 hours for the first usage.

Using method: Plug your charger or DC end of the cable into the micro 5P port, after this, the LED indicates red, it will turn green when being fully charged.

Warning:

- Please choose the certificated charger made in qualified factory.
- Please charge it if nonuse for over 3 months

2. Specifications

FCC Statement:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Warning: Changes or modifications to this unit not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.
