RE: Request for Confidentiality
FCC ID: TAT-GP-RWT

To whom it may concern,

The partners of Active RFID Systems Inc (ARS), formally request that specific technical information pertaining to product model #GP-RWT active RFID transmitter not be made available for public disclosure.

We at ARS realize the implication of this sensitive information in possession by other competing organizations will have a substantial economic impact on the investment made by our corporation in developing this product for our needs. Many of the design elements contained within are considered proprietary, and we request the Commission withhold this information pursuant to the provision of 47 CFR §0.457 and §0.459 of the Commission's Rules, and Section 522 of the Freedom of Information Act (FOIA). In addition, this product will not have internal access by the user by function of the packaging design. The plastic over-mold process will render this product sealed with no user accessible openings.

Material to be held confidential and not made available to the public or end user:
