Dear Helen,

Attached please find the test report.

Re-Q#1 :

After remove the notebook, the plots was agree with the data in the table.

Re-Q#2 :

Yes, the star mark "\*" is the instable result.

We have updated all of the plots with star mark (PPSD and dwell time).

Thanks for your remind.

Any more questions please feel free to contact with me.

Best regards,

Joe Hsieh

Question #1: The radiated emission test data listed in the table do not agree with the plots provided in the same report. Please update the test report.

Question #2: Some of PPSD plots and dwell time plots have red star mark ("\*"). It seems the plots need to be stabilized for a while, the plots were printed out a little bit earlier. Please confirm.

Best Regards,

Helen Zhao

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in

application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
