

## Annex E - leakage

Naming Convention:

Mode (a-mode, n-mode) Frequency (MHz), Measurement (Leakage)

### U-NII-2A Leakage:

| Output Power (dBm) | Leakage Power (dBm) | Delta (dB) | Threshold (dB) |
|--------------------|---------------------|------------|----------------|
| 802.11a            |                     |            |                |
| 17.84              | -11.11              | 28.95      | >26            |
| 802.11n20          |                     |            |                |
| 17.91              | -9.45               | 27.36      | >26            |
| 802.11n40          |                     |            |                |
| 12.59              | -29.17              | 41.76      | >26            |

DCCF was added to the leakage power 9dBm) measurements
