

## **2.4GHz Wireless Mouse User Manual**

### **To Install Batteries:**

1. Turn Mouse upside down.
2. Remove detachable battery cover.
3. Insert 2pcs AAA (Alkaline recommended) as per the indicated polarity inside the battery compartment.
4. Replace the detached cover.

### **Wireless Mouse Setup:**

1. Take the mouse from the packing
2. Open the battery cover, put into 2 AAA batteries (Pay attention to the battery polarity)
3. Working Distance is within 5-10meters.
4. Now you can use it and enjoy it.
5. If you need to turn OFF the mouse, press the button located on the bottom of the mouse for 3 seconds. You can resume the power of the mouse at anytime, by pressing the button once again.

### **Power Save Auto-Sleep Function:**

The mouse will automatically switch OFF to save power drained from batteries, when not in use for 8 minutes. To resume power, simply move the mouse or press any buttons to resume power to the mouse.

### **WARNING:**

Avoid eye contact with optical sensor located at the bottom of the mouse. As with any very bright light source, such as the sun, the user should avoid staring directly into the laser head while powered up.

#### **Batteries:**

Non-Rechargeable batteries are not to be recharged.

Different types of batteries or new and used batteries are not to be mixed.

Only batteries of the same or equivalent type as recommended are to be used.

Batteries are to be inserted with the correct polarity. Exhausted batteries are to be removed from the product. Replace all batteries of a set at the same time.

Remove used batteries promptly.

The supply terminals are not to be short-circuited.

Do not dispose of in fire.

Waste electrical products/ batteries should not be disposed of with household waste.

### **FCC STATEMENT**

1. This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
  - (2) This device must accept any interference received, including interference that may cause undesired operation.
2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
