Safety precaution

This symbol indicates “dangerous voltage” inside the product that presents a risk of electric shock or personal injury

This symbol indicates important instructions accompanying the product

CAUTION: DVD PLAYERS USE AN INVISIBLE LASER BEAM, WHICH CAN CAUSE HAZARDOUS RADIATION EXPOSURE IF DIRECTED. BE SURE TO OPERATE PLAYER CORRECTLY AS INSTRUCTION.

FCC NOTICE

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on.

**FCC Warning Statement**

THE MANUFACTURER IS NOT RESPONSIBLE FOR ANY RADIO OR TV INTERFERENCE CAUSED BY UNAUTHORIZED MODIFICATIONS TO THIS EQUIPMENT. SUCH MODIFICATIONS COULD VOID THE USER'S AUTHORITY TO OPERATE THE EQUIPMENT.

Disc storage

- ✓ Be careful not to harm the disc because the data on these discs is highly vulnerable.
- ✓ Do not keep under direct sunlight.
- ✓ Keep in a cool, ventilated area.
- ✓ Store vertically.
- ✓ Keep in a clean protection jacket.

COPY PROTECTION

Many DVD discs are encoded with copy protection. Because of this, you should only connect your DVD player directly to your TV, not to a VCR (Video Cassette Recorder). Connecting to a VCR can result in a distorted picture from copy -protected DVD discs.

This product incorporates copyright protection technology that is protected by methods claims of certain U.S. patents and other intellectual property rights owned by Macrovision Corporation and other rights owners. Use of this copyright protection technology must be authorized by Macrovision Corporation, and is intended for home and other limited viewing uses only, unless otherwise authorized by Macrovision Corporation. Reverse engineering or disassembly is prohibited.

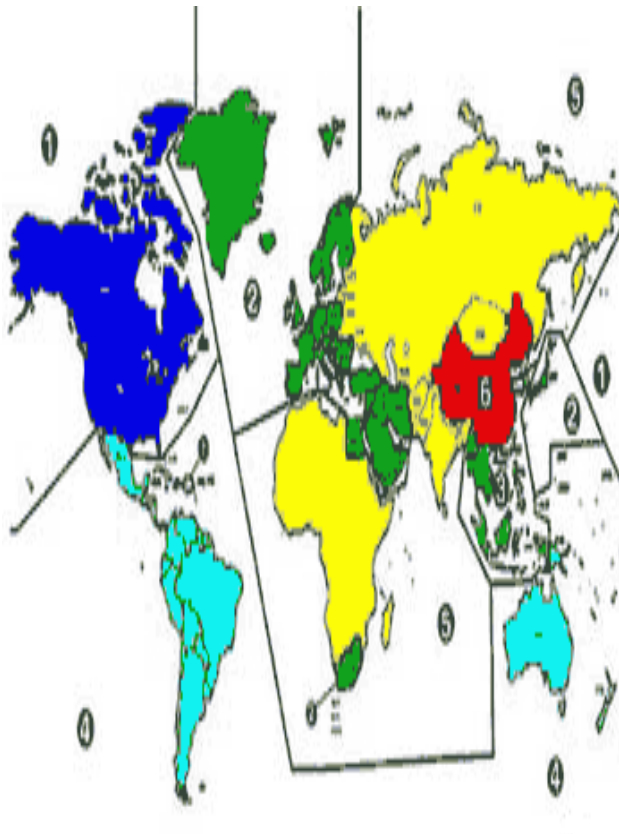

Regional coding

Both the DVD player and disc are coded by region. These regional codes must match in order for the disc to play. If the codes do not match, the disc will not play.

Other regional codes cannot be played in this unit. The unit will display "WRONG REGION."

Region codes are printed on the DVD disc or protection jacket (rear side)

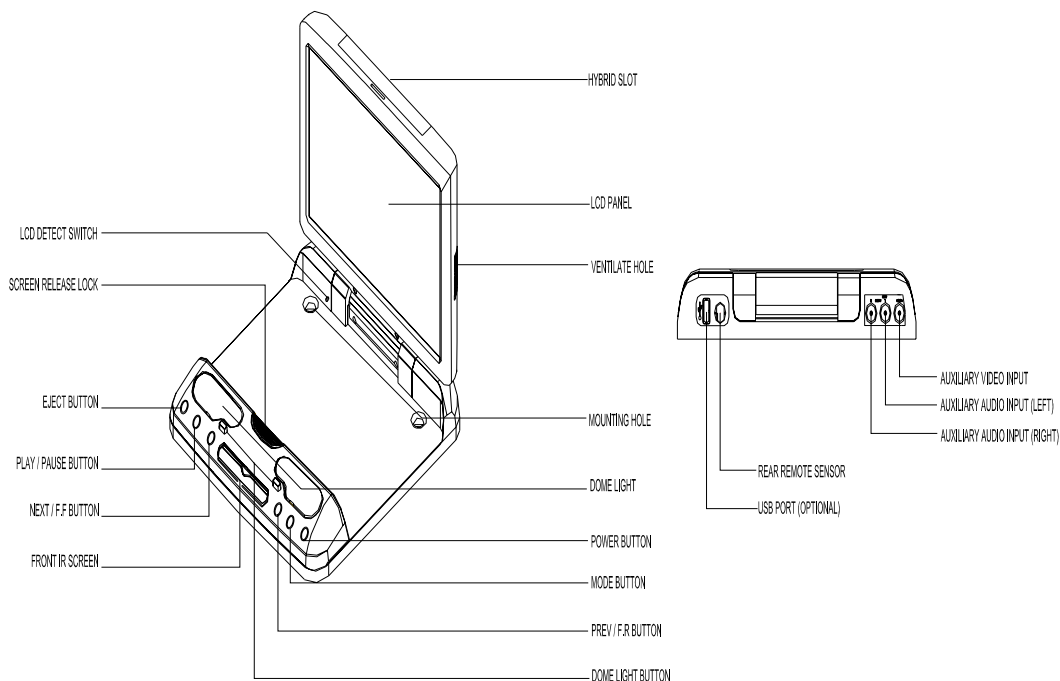

1. Canada, U.S., U.S. Territories
2. Japan, Europe, South Africa, Middle East (including Egypt)
3. Southeast Asia, East Asia (including Hong Kong)
4. Australia, New Zealand, Pacific Islands, Central America, Mexico, South America, Caribbean
5. Former Soviet Union, Indian Subcontinent, Africa (also North Korea, Mongolia)
6. China

Congratulations on your purchase of the Raymedia Co.,Ltd ROV-1000(CHAMELEON) 10.2" overhead DVD player. Before operating this 10.2" overhead DVD player, please read this manual thoroughly and retain it for future reference.

General features

- World slimmest & most compact 10.2" overhead DVD player (38mm)
- Patent hybrid slot loading mechanism
- Heat prevention from the roof
- Easy access to disc slot
- Anti shock, anti vibration and wide temperature endurance
- 10.2" wide screen TFT LCD panel (16:9 aspect ratio)
- Built-in DVD loader on the backside of LCD panel
- NTCS/PAL auto switching by video source
- Full function remote control with on screen display
- Attachable TV tuner and FM transmitter (optional)
- USB port for external USB device (optional)
- Built-in 6 LED IR transmitters for a wireless headphone
- Two audio/video inputs (composite video)
- Digital audio output for an external amplifier
- Last scene memory function for DVD
- 3-way remote sensor eyes (front, rear and external)
- Dual bright dome light

Main function descriptions

1. Front IR screen

Transmits audio to wireless headphones and receives remote control signal from the remote control.

2. POWER button

Turns ROV-1000 (CHAMELEON) on or off
Button backlight is red color

3. PLAY/PAUSE button

Press this button to activate the play mode while a disc is loaded into the disc compartment.

Press the button again to allow the user to pause the playback

Button backlight is green color

4. NEXT/ F.F button

Allows the user to advances to the next chapter, track or scene during playback.

Press the button to allow NEXT and Press the button longer to work fast forward.

Button backlight is green color

5. PREV/ F.R button

Allows the user to goes back to the preceding chapter, track or scene during playback.

Press the button to allow PREV and Press the button longer to work FR.

Button backlight is green color

6. MODE button

Switches input source (DVD, TV, AUX1 or AUX2)

Button backlight is green color

7. EJECT button

Stops play and ejects disc.

Button backlight is green color

8. Dome lights button

Press this button to turn the dome light on.

Press the button again to turn the dome light off

9. LCD release lock button

Press this button the LCD screen drop down slightly

10. LCD detect switch

Turn LCD power off when panel is closed

11. Auxiliary video input.

Auxiliary video input port

12. Auxiliary audio input (left/right).

Auxiliary audio input ports (left/right)

13. Rear remote sensor

For remote control operation only

14. USB port (optional)

For external USB device (memory stick, multi card reader, hard disk, MP3 player and digital camera)

Remote control operation

Battery installation

Before attempting to operate your remote control, install the battery as described below.

- 1) Turn the remote control face down. Using a clip and/or fingertip, pull down the battery cover open.
- 2) Install one “CR2025” battery as shown. Make sure that proper polarity (+ or -) is observed.
- 3) Align the cover tabs with the remote control and press down until the cover clicks.

If remote doesn't operate properly

- 1) Check the polarity +/- of the battery (Coin-Cell).
- 2) Check if the battery are drained.
- 3) Check if remote sensor is blocked by obstacles.

1) POWER

Turns on or off the DVD player.

2) MODE

Use to select a input source. (DVD/TV/AUX1/AUX2)

3) SETUP

Use to set various functions according to individual preference.

4) EJECT

Open/Close the disc tray or ejecting / loading the disc slot.

5) DIM

Use to LCD backlight adjustment.

6) M.MENU

Use to LCD screen menu.

7) M.MODE

Use to LCD screen mode (3:4, WIDE, ZOOM) select.

8) IR.CH

Use to IR audio transmitter frequency select.

9) FM

Use to FM transmitter frequency select.

10) GOTO

Use to go to specific time or chapter and playing.

11) A - B

Repeats the selected segment.

12) NUMBER (1,2,3...9,0)

Use from the menu to select, title/chapter search, time search and direct track number.

**13) RETURN/SCAN**

Return to the normal operation after using the setup menu.

Use to TV channel scanning, the TV will stop on active channel.

14) CLEAR/DEL

Use when discarding wrong number input or returning to normal play during slow or search.

Use to delete TV preset channel from memory (Erase).

15) REPEAT/ADD

Repeats part all of a chapter, title, track or an entire disc.

Use to add TV preset channel to memory (Store).

16) CH- (|| ◀◀)

Use to move to the previous chapter or track.

Use to flip down through the TV channels.

17) CH+ (▶▶ ||)

Use to move to the next chapter or track.

Use to flip up through the TV channels.

18) MENU

Use to display the contents menu of the loader disc.

19) ▲▼◀▶

Use to selection on the menu screen.

20) SEL

Selects menu items and begins disc play.

21) TITLE/PBC

Use the display the title menu of the loaded DVD [disc](#).

Use to select a particular scene or information of a VCD disc from the menu screen.

22) R.SLOW (◀◀)

Backwards through the DVD disc from 2X to 64X faster. Forwards through the disc from 2X to 8X faster.

23) F.SLOW (▶▶)

Forwards through the DVD disc from 2X to 64X faster. Forwards through the disc from 2X to 8X faster.

24) DISPLAY

Shown the information about title, chapter and time.

25) MUTE
