Subject: Re: Novita.Co.,Ltd., FCC ID: TFLVS100, Assessment NO.: AN05T4917, Notice#1

Dear Helen,

I'm so sorry about that.

Question #1: Please submit an Agent Authorization Letter.

--> please check the attached file (authorization letter and confidential letter)

Question #2: Please update the test report to change field strength limit. Based upon FCC18.305, the Field Strength limit is 15 uV/m at 30m.

--> It is my mistake. I corrected the limit in the report , please check the attached file (Report Humidifier)

Question #3: This is for your information only. On Form 731, Product Code is different from FCC ID. FCC ID consists of Grantee code and Product code. Like this case, "TFL" is the grantee code, "VS100" is the Product code, please do not enter "TFLVS100" as the product code, if so, the FCC ID would be "TFLTFLVS100" which is not what you intend.

--> Thank you for your kind advice

i hope your day is going well today.

best regards

bum jong KIM
