

FCC ID: 2ABTQUDX80
This device complies with
FCC Rules Part 15.

Populated circuit board, TGUDX80
Limited modular approval applies to this
assembly ONLY.

- Design has not changed since 2005.
- Board includes all radio components.
- The only reason it does not qualify for a full Modular Approval is it lacks its own voltage regulator.
- Voltage regulation is accomplished on the larger carrier board and has been carefully preserved across all revisions.

TGUDX80 board, back side.
